

CSM + Agile Tools & Techniques + Technical Implementation & Demonstration

Hands on workshop with CSM Certification

This workshop provides instructions on the key areas necessary to take on the role of Leading or Participating in Agile project management team. The session will cover the Scrum framework defined by Scrum Alliance and other best practices in terms of implementing and working with Agile. The material will be presented through lecture, group discussion of case studies and group exercises. This workshop will cover materials and necessary certification fee to pass the Scrum Alliance Certified Scrum Master (CSM) exam in Day 3. Agile technical implementation tools and techniques will be demonstrated.

WHO SHOULD ATTEND?

Project manager, product owner, team leader or team member who manage or participate in Agile / SCRUM projects.

Date : 21-23 Oct 2011
Time : 9.00am - 5.30pm
Venue : Seminar and Conference Center
Menara PKNS, Petaling Jaya

By means of mini-lectures, group discussions, case studies, and group exercises, you will:

- Understand the dynamic of the Agile methodology, internalize the tools used in Scrum;
- Reflect on your company own methodology and discover how to implement Scrum in your organization;
- Improve your project management skill, understand how to lead Scrum teams;
- Meet the requirements for Certified Scrum Master exam
